

6 Courses

Robotics: Aerial Robotics

Robotics: Computational Motion Planning

Robotics: Mobility

Robotics: Perception

Robotics: Estimation and Learning

Robotics: Capstone

04/23/2020

ROHIT RAVINDRA KHARAT

has successfully completed the online, non-credit Specialization

Robotics

The Intro to Robotics Specialization introduces you to the concepts of robot flight and movement, how robots perceive their environment, and how they adjust their movements to avoid obstacles, navigate difficult terrains and accomplish complex tasks. You will be exposed to real world examples of how robots have made advances in human health care and what their future capabilities will be. The online courses named in this certificate may draw on material from courses taught on-campus, but it is not equivalent to an on-campus course. Participation in this online course does not constitute enrollment at the University of Pennsylvania. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

Vijay Kumar, Daniel Lee, Sid Deliwala, E. Koditschek, CJ Taylor
